EDUCATION

BACHLOR OF ENGINEERING: SOFTWARE (2012 - 2016)
Ontario Tech University

Graduated with honours (3.69 GPA) while receiving multiple Dean's & President's List awards.

PROFILE

Hi! I'm Peter, a team-oriented and hardworking full-stack web developer, with over 8 years of experience. I'm looking for the next challenge in my career.

I'm extremely passionate about two things: self-improvement, and building great things so, I'm most interested in a great company where I can do both. A company that I can really sink my teeth into, make a big impact and grow along the way.

I would love the opportunity to discuss potential positions in your company and how I could be a fantastic addition to your team.

HOBBIES

EXPERIENCE

SENIOR FULL STACK DEVELOPER (Contract)   Aug 2023 - Nov 2023
GovernGPT.ai | Toronto, Ontario

Responsible for working directly with the CTO and CEO to rapidly prototype various incarnations of the product during the early stages of this Y-Combinator Startup (W24)

This included research, design, development, testing, and maintenance in javascript, python, and prompt engineering

CTO & CO-FOUNDER   Mar 2022 - April 2023
StartScreen.io | Toronto, Ontario

Within the Entrepreneur First Talent Accelerator (TO3), My co-founder and I created our company and received funding offers from various investors.

As Co-Founder and CTO I was responsible for the entire development lifecycle of our products, along with several non-technical responsibilities including Customer Discovery/development, pitching, investor relations, and management of the company.

SENIOR FULL-STACK DEVELOPER   Oct 2020 - Mar 2022
CrowdRiff.com | Toronto, Ontario

As a senior dev it was my responsibility to lead a team of developers to the end-to-end completion of various features on our core product. With sole ownership over these projects, it was my responsibility to manage all aspects of the project. This included running all required meetings, research, planning, grooming, testing, implementation, and helping team members

MODEL & ACTOR / FREELANCE DEVELOPER   2019 - 2020
ICON Models / Freelance | Toronto, Ontario

In April 2019 I was scouted and signed by a top modeling and acting agency in Toronto. While working as a model I decided it was the perfect opportunity to do freelance development and work every day on my own projects.

Please see page 2 for overview of some of my side-projects.

FULL-STACK DEVELOPER / TEAM LEAD   2016 - 2019
360Insights | Whitby, Ontario

Starting out as a junior developer, throughout my 3 years at 360 my role continuously grew until I was selected to take over for an outgoing team lead

As acting team lead, I was responsible for facilitating technical discussions, interviewing and onboarding new members, as well as representing my team in cross-team collaborations and meetings with management.

My other responsibilities included: designing and implementing various features across both the front-end and back-end of our platform.

SOFTWARE ENGINEERING RESEARCH TECHNICIAN   Summer 2015
University of Ontario Institute of Technology

Responsible for the complete development of a Windows app including design, implementation, and testing. -- See GameLink (pg.2)
